

PLANTING CALENDAR

PLEASE READ FIRST!

This calendar is for use as a general guideline. Even the various garden books do not agree on all their recommended planting times.

Bear in mind, are you planting an early bearing variety or a late one? Timing of planting and particular varieties are important factors, as well as, considering are you planting seeds, seedlings, or bareroot? If planting say in August for fall crops, you may need to start your seeds in partial shade, perhaps even at home to control moisture.

In any event nature loves to keep us guessing with earlier than normal winters or longer than normal summers! Both excessive cool or warm temperatures may cause some vegetable varieties to "bolt" early (go to seed), or make seed sprouting difficult.

January

Asparagus, Asian Greens, Beets, Broccoli, Cabbage, Cauliflower, Celery, Swiss Chard, Endive, Escarole, Garlic, Kale, Kohlrabi, Leeks, Lettuce, Mustard, Bunching Onions, Short Day Onions, Parsley, Peas, Potatoes, Radishes, Rhubarb, Rutabagas, Spinach, Turnips
