

COMMUNITY SERVICE TASK LIST

The CCG is an all-volunteer, active, working, community garden; and as such, requires all of its members to assist in the upkeep and support of the garden. All members are required to give a minimum of six CCG community service hours a year. Two of the service hours must be obtained by participation in a garden workday. The other four may be met through additional workdays, assisting fundraisers, individual work done at the garden, etc. *The minimum 6 hours of service must be completed by May 31st, to avoid membership termination. New members who sign up after April 30th have 90 days to complete community service hours.* If, due to work, vacations, etc., a member is unable to attend a workday, they must arrange with CCG Board to fulfill that requirement in another manner. Only verified hours reported within 2 weeks will be credited.

Please use this list to select tasks for your volunteer community garden time. These tasks all count toward the minimum required 6 hours. Of course, any extra volunteer hours benefit the garden community and are always welcomed. We hope that you will find tasks that are enjoyable, as well as beneficial for the garden.

Check the box next to tasks that you are most interested in participating. This will help facilitate coordination. Checking the box does not necessarily mean that area will be available for you to attain your hours.
